```javascript
const boxes = document.querySelectorAll('.box');

boxes.forEach(box => {
    box.addEventListener('click', () => {
        boxes.forEach(b => b.classList.remove('active'));
        box.classList.add('active');

        const radio = box.querySelector('input[type="radio"]');
        radio.checked = true;
    });
});
```
